✳️Installation procedures

<p>1.</p>	<p>2.</p>
<p>1. Before installation, make sure of the proper deck thickness, then make 3 holes with distance at 100~150mm between each hole.</p>	<p>2. Remove the T-union(16), plastic clip(15), nut (14), gasket(13) from spout(10).</p>

<p>3.</p>	<p>4.</p>
<p>3. With base(11), washer B(12) still on, insert the spout(10) through the middle hole and install the spout with gasket(13) and nut(14) from underdeck.</p>	<p>4. With the spout facing forward, fix it by tightening the nut with a wrench. Install the T-union(16) onto the spout outlet and fasten it with plastic clip(15).</p>
