# PT7001 SPECIFICATIONS
electronica wall-mount control wheel kit for basin

FEATURES:

- Wall-mount one outlet electronica controller (non-thermostatic)
- Single control to interface with individual basin spouts
- Kit includes:
  - ① single control wheel
  - ② fit-out set for in-wall box with round trim plate
  - ③ controller unit
  - ④ in-wall box for controller unit
- Installed kit controls temperature + volume
- Touch control allows for easy on/off, with LED-light ring providing a visual temperature indicator
- Three individualized presets that allow for quick access to desired temperatures
- Cleaning mode allows you to temporarily switch off electronic components for easy & safe cleaning
- Requires UNO electronica basin control mixer TEE015

SPECIFICATIONS:

Wheel:	Ø1¾" x ⅖" (44mm x 10mm)
Round trim:	Ø2¼" x ⅕" (55mm x 5mm)
Distance from control mixer:	4ft (1.2m) Max
Material:	Wheel/trim: brass/chrome plated; plastic components
Warranty:	Limited lifetime tapware warranty (residential)
	Five year electronic part warranty (residential)
	One year warranty (commercial)
Shipping dimensions:	(LWH) 8¼" x 7" x 5" (210mm x 180mm x 125mm)

FOR PURCHASE SEPARATELY:

Required UNO control mixer TEE015

Optional pure·2 basin spouts TF200 & TF210

Optional opus·2 basin spouts TF250 & TF260

INSTALLATION

Our products must be installed by certified professionals only and according to our installation guide as well as federal, provincial/state and local building codes and regulations. Installation must allow for future access to control box for maintenance purposes. This work must be carried out in accordance with the regulations IEC 364-7-701-1984 (corresponding to VDE 0100 Part 701) as well as all national local regulations. Any electrical installation work must only be performed by a qualified electrician.
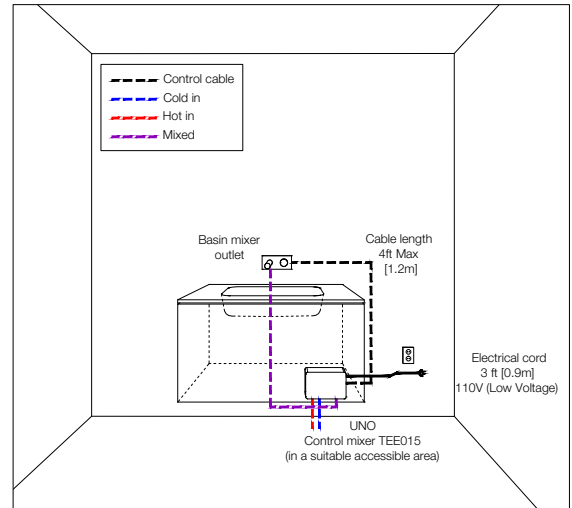

SAFETY NOTES:

- Prevent danger resulting from damaged power supply cables. In the case of damage, the power supply cable must be replaced by the manufacturer or his customer service department or an equally qualified person.
- Installation is only possible in frost-free rooms. The optional power supply unit is only suitable for indoor use.
- The plug-in connectors must not be directly or indirectly sprayed with water when cleaning.
- The voltage supply must be separately switchable.
- The maximum permissible distance between the electronic controller and the functional unit is 4 feet (1.2m) (47").
- If the static pressure exceeds (72.5 psi), a pressure reducing valve must be fitted.

CODES / STANDARDS APPLICABLE:

- Meets or exceeds ANSI / ASME standard A112.18.1 and CAN / CSA B125.1-05 requirements
- IAPMO/ UPC / cUPC
