

For Residential and Commercial Applications

Job Name		Engineer / Architect	
Job Location		Wholesaler	
Submittal Date		Contractor	

R19B12DLX Braided One-Piece Toilet Supply Kit - Multi-Turn Angle Stop Sweat x Compression

Use: For use in potable water distribution systems, hot and cold, in accessible locations only. Not intended for recirculating systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series supply kits.

Design Features:

- **Everything you need.** These kits combine our trusted BrassCraft® supply stop and braided water connector for an easy-to-install, one-piece connection.

Braided connector provides:

- **Corrosion Resistance** to harsh chemicals found in most common household cleaning and plumbing repair products
- **More flexible than stainless steel**, the braided polymer-coated fibers bend freely without kinking or crimping
- **Rubber washers** provide a large pliable sealing surface and ensures a long lasting water tight connection

Multi-turn stop provides:

- **Machined one-piece brass body** provides strength, durability, and long-lasting performance
- **Oval knurled handle** provides a secure grip and smooth on/off operation
- **Easy-to-remove handle** with screw attachment helps protect against accidental stop operation during rough-ins

Operating Specifications:

Temperature: 40° - 140° F, intermittent to 180° F

Pressure: 125 PSI maximum

Tubing Diameter: 0.300" ID (0.550" OD)

Includes 1/2" nom shallow escutcheon (see 649 submittal form for details)

CONNECTOR MATERIAL SPECIFICATIONS	
Inner Hose	Reinforced PVC
Braiding	PVC yarn
Barb	Brass
Ferrule	Steel, plated
Nut	Brass
Washer	Rubber
Shallow Escutcheon	Stainless steel

STOP MATERIAL SPECIFICATIONS	
Body	Brass, plated
Stem	Brass, plated
Bib & Packing Washers	Rubber
Packing Nut	Brass, plated
Handle	Metal, plated
Screw	Steel, zinc plated
