

Temperature calibration Calibration de la température

During the installation - Pendant l'installation

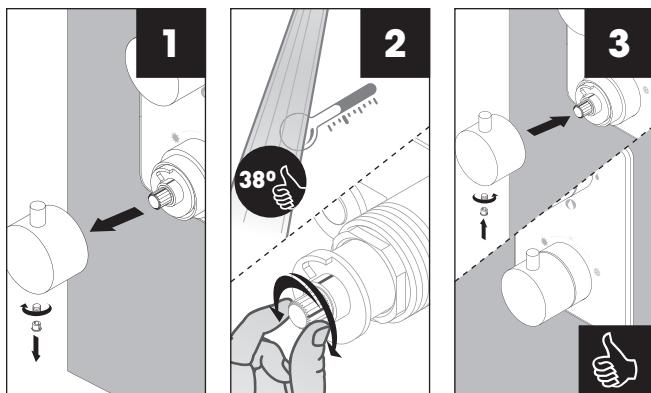

The valve has a security button at 38°C, however the temperature can be adjusted to a maximum of 43°C.

1. Before securing the temperature handle, align the black lines on the cartridge body and the spindle; this calibrates the cartridge.
2. Place the temperature handle on the cartridge, aligning the button with the "38°C" marking on the plate.

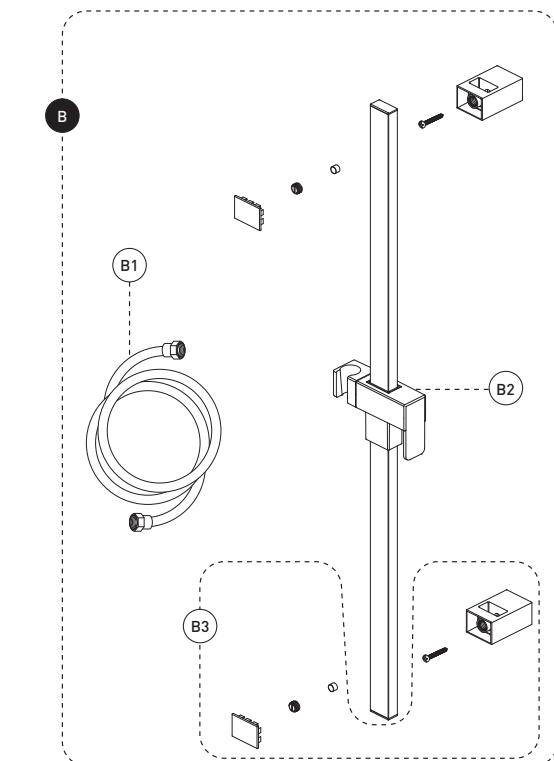

Recalibration

1. Remove the temperature handle from the cartridge by loosening the Allen screw.
2. Turn water on and measure its temperature using a thermometer. If it is below 38°C, turn the spindle slightly counterclockwise. If the temperature is above 38°C, turn the spindle slightly clockwise, until you reach 38°C.
3. Place the temperature handle back on the spindle aligning the button with the "38°C" marking on the plate.

No	Description	Part Pièce
A	Valve - Trim for Thermostatic Diverter Valve with Volume Control	VAL98TS2TCP
A-1	Thermostatic handle kit	FCKTS2128
A-2	Index	FCHDL4017
A-3	Allen screw	923001
A-4	Trim sleeve	FCDEC5017
A-5	Face plate with seal	FCDEC7095
A-6	O-Ring (2.65mm x 48.70mm)	FCORA1039
A-7	Diverter trim sleeve	FCDEC5018
A-8	Diverter handle kit	FCKTS2130
B	Sliding bar kit with flexible hose	B90-830
B-1	Flexible hose	96179
B-2	Hand shower holder	B93-800
B-3	Wall support	B93-801
C	Hand shower (1,8 gpm)	FCSPS2039
D	Water supply elbow	B92-003
E	Shower arm and flange kit	FCDEC0015
F	Shower head	FCSPS3034

CARE INSTRUCTIONS

Rinse the product with clear water.
Dry the product with a soft cloth.

DO NOT:

Use abrasive cleansers, cloths, or paper towels. Use any cleaning agents containing acid, polish, wax, alcohol, ammonia, bleach, solvent or any other corrosive or harsh chemical cleansers.

INSTRUCTIONS D'ENTRETIEN

Rincer le robinet avec de l'eau claire.
Et l'essuyer avec un tissu doux.

À NE PAS FAIRE:

Utiliser des tissus ou essuie-tout abrasifs, produits nettoyants contenant de l'acide, agent polisseur, cires, alcool, ammoniaque, eau de Javel, solvants ou tout autres produits chimiques corrosifs.

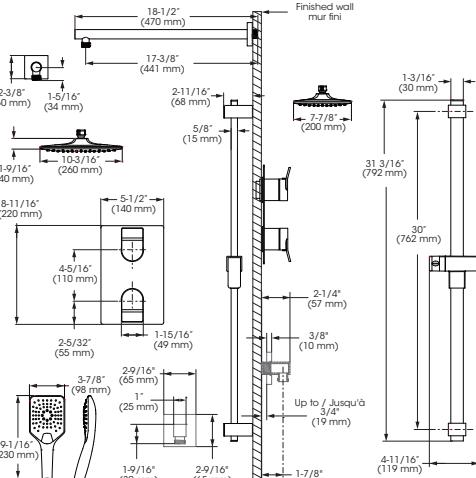

IMPORTANT

Bélanger recommends using a professional plumber for all installation and repair. Please inform yourself about the Canadian Plumbing Code's regulations and your local municipality plumbing codes before installation. The Canadian Plumbing Code requires the installation of surge arresting devices to eliminate water hammering. **ALLOW AN ADEQUATE OPENING IN ORDER TO EASILY ACCESS CONNECTIONS OR OTHER PLUMBING DEVICES FOR MAINTENANCE OR REPAIR.**

Bélanger recommande de faire appel à un plombier compétent pour l'installation et la réparation de ce produit. Veuillez vous informer des différentes règles du Code Canadien de plomberie et des exigences de votre localité avant l'installation. Le Code Canadien de plomberie exige l'installation d'un dispositif anti-bélier afin d'amortir les coups de bélier dans la plomberie. **PRÉVOIR UNE OUVERTURE SUFFISANTE POUR FACILITER L'ACCÈS AUX RACCORDEMENTS OU À TOUT AUTRE DISPOSITIF DE PLOMBERIE EN VUE DE L'ENTRETIEN OU DE LA RÉPARATION.**

RECOMMENDED TOOLS / OUTILS RECOMMANDÉS

Plumber's putty
Mastic pour plombier *

Thread seal tape
Ruban d'étanchéité pour joints filetés **

Included / Inclus

* Apply plumber's putty under the plastic cover deck plate to seal your installation.

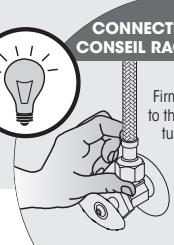

Appliquez du mastic pour plombier sous la sous-plaque de plastique pour rendre votre installation étanche.

** Apply Bélanger thread seal tape on threaded connections.

Appliquez du ruban d'étanchéité Bélanger sur les connexions filetées.

The model shown in the installation steps may differ from the one in box however connection type and installation steps are the same.

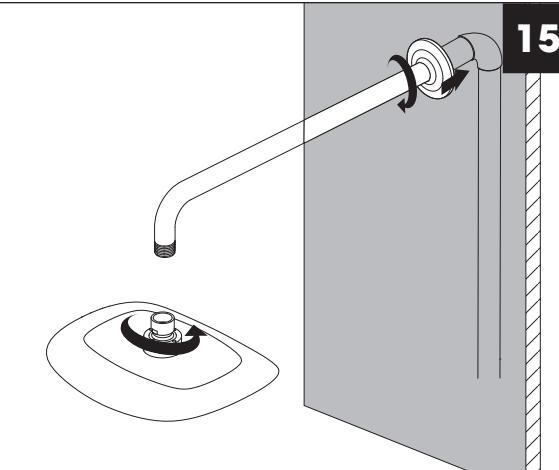

Le modèle démontré dans les étapes d'installation peut différer du produit en boîte, mais le type de connexions et d'installation demeure le même.

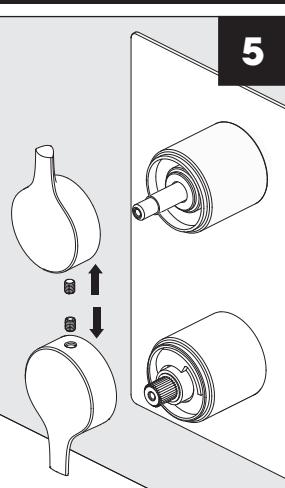

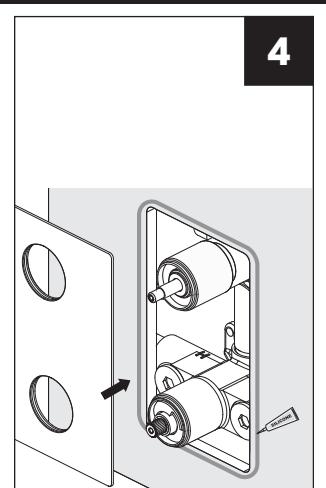

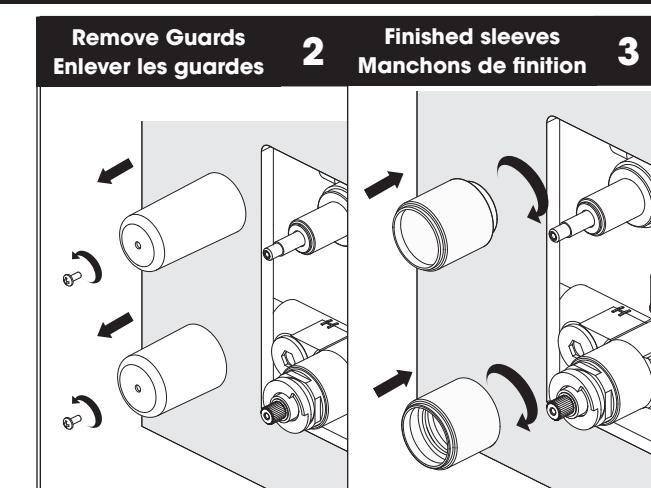

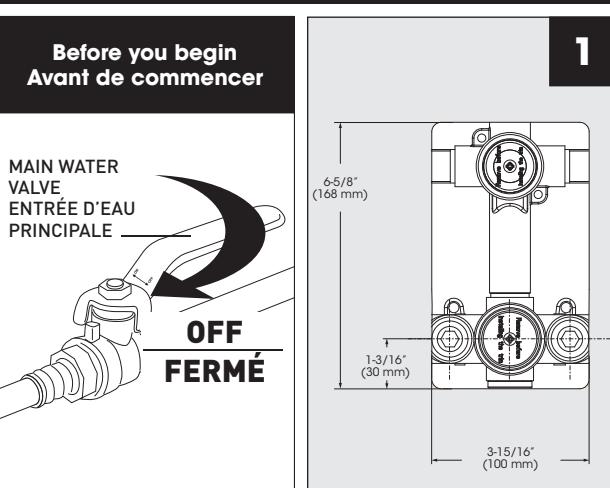

CONNECTION ADVICE CONSEIL RACCORDEMENT

Firmly hand tighten the hose to the valve and add a quarter-turn using the proper wrench. Tighten more if needed.
Raccordez le connecteur flexible à la valve en serrant fermement à la main puis ajoutez un quart de tour à l'aide de la clé appropriée. Serrez plus au besoin.
