

# INSTALLATION GUIDE

## Pot filler faucets

**PF 3100**  
Ambient Series

**PF 3200**  
Logik Series

**PF 3300**  
Farm House Series

## TECHNICAL DATA

Standard water flow 2.2 gpm - 60 PSI

Recommended pressure range 7.5-70 PSI

 has certified that this faucet complies with NSF372 drinking water system components requirements. These requirements meet California Health and Safety Code requirements for low lead (AB1953) as well as the low lead requirements of the US Safe Drinking Water Act of 2014.

## FAUCET INSTALLATION

1. Remove all contents from the package and check for completeness.

### NOTE:

	PACKAGE OF CONTENTS
1	FAUCET
2	BODY
3	ESCUTCHEON AND O'RING
4	TOOLS

2. For best results, Franke recommends that this unit be installed by a licensed, professional plumber—please read over the instructions before beginning the installation. Make sure to observe all local plumbing and building codes during installation of this unit.
3. Remove faucet and hardware from its protective packaging. Disassemble the faucet from the body by removing the set screw in the body and lifting the faucet from the body.
4. Shut off main water supply.
5. This faucet requires a 1/2" NPT male nipple at the desired faucet location for proper installation. The nipple must have adequate bracing to support the faucet. ATTENTION: the faucet is intended for use with cold water only! The water supply nipple should extend from the finished wall between 3/8" and 1/2" (8,5 mm Min - 12,5mm Max).
6. Apply thread sealing tape or thread sealant onto the cold water supply fitting.
7. Slide the escutcheon onto the body and screw the body onto the water supply nipple. ATTENTION: the o-ring should be sitting between the wall and the escutcheon. DO NOT use putty or other sealant at this location.
8. Tighten body and confirm it is horizontally level.

### INSTALLATIONS TOOLS

 — Allen wrench (included)

 — Grease (included)

 — Thread sealing tape

 — Level

 — Screw driver

9. Fix the escutcheon by tightening the screw with the provided allen wrench.
10. Grease the o-rings with the special grease supplied.
11. Insert the faucet into the body. **ATTENTION:** insert the fixing screw into the white ring slot.
12. Tighten fixing screw with a flat screwdriver.

13. Remove the aerator by turning it counter clock wise with a 22mm wrench.
14. Turn on the faucet and allow it to run for several seconds. This will flush any debris from the faucet from the installation process. While the faucet is on, check for leaks.
15. Turn off the faucet and reinstall the aerator in reverse order of step 13.

## REPLACING THE CARTRIDGE

1. Shut off the water supply to the faucet.
2. Open the faucet briefly to relieve any pressure inside the faucet.
3. Move the faucet handle to the "OFF" position.
4. Remove the screw cover, unscrew the set screw and remove the handle.  
For PF3300 Series, unscrew the cap.
5. Remove cartridge from valve body seat by using a 17mm socket wrench.
5. Install the new cartridge into valve body; ensure to tighten cartridge to 14 ft./lbs. (18.9 Nm).
6. Re-assemble faucet in reverse order.
7. Test for leakage.

## GENERAL MAINTENANCE

Clean aerator periodically. Do not use harsh detergents, solvents, chemical agents, metallic sponges, etc. that could harm the surface and damage the finish. Clean only with a soft sponge and soapy water.

\* NOTE: Specify color finish when ordering replacement parts

## LIMITED LIFETIME WARRANTY

---

Congratulations on the purchase of this Franke product! Franke is one of the world's largest manufacturers of kitchen systems. Our products are manufactured using the highest degree of technology quality and design. As a result we are proud to offer the following warranty.

Franke Inc. Kitchen Systems Division, warrants the quality of its water dispensing systems to be free from manufacturing defects for a period of five years from the date of purchase. This warranty applies only to the original owner, providing the product has been installed in accordance with these installation instructions, used as recommended and in a normal residential application. **In the event of a warranty claim, the owner will be required to provide proof of purchase – SAVE ORIGINAL SALES RECEIPT!** This warranty covers all components necessary to restore the product to good working condition. Franke reserves the right to inspect the installation prior to the replacement of the product or component part.

**Marine and Outdoor Installation:** Franke Consumer Products, Inc. faucets are NOT warranted for Marine and Outdoor installations.

This warranty does not cover misuse or abuse, accidental damage, scuffs or scratches, abnormal usage, negligence or damage caused by improper maintenance or cleaning. Normal wear of parts is excluded from warranty. Damage caused by impurities or acts beyond Franke's control are not covered. Any product or part which has been repaired or altered in any manner outside of Franke's factory, unless previously authorized in writing by Franke, will void warranty. **Any replacement excludes transportation and any labor re installation costs.** This warranty does not allow recovery of incidental or consequential damages such as loss of use, delay, property damage or other consequential damage, and Franke accepts no liability for such damages.

The Franke warranty is limited to the above condition and to the warranty period specified herein and is exclusive. Franke **DISCLAIMS** all other warranties, expressed or implied, including the **IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.** This warranty gives you specific legal rights which may vary from state to state.
