

Wall-mounted brush holder, black

## **TECHNICAL FEATURES**

- **Depth:** 108 mm
- **Height:** 452 mm
- **Width:** 76 mm
- **Container color:** Black
- **Container material:** Neolite
- **Container presence:** Si

## **CERTIFICATIONS**

Production managed by a certified Quality System compliant with ISO 9001:2015 For additional approved contact Gessi S.P.A.

## **INDICATIONS FOR CLEANING**

Clean only with a new microfiber cloth and soapy water and dry with a dry cloth. Detergents, solvents, alcohol, abrasive sponges, wire, wool, alcohol, etc., should not be used as these could irreparably damage product surfaces compromising its aesthetics and brilliance.

## **ACCESSORIES AND FITTINGS**

For additional matching bathroom accessories and fittings available, see official Gessi price list.

## **FINISHES CHARACTERISTICS**

### **CHROME**

Gessi products have a Chromium Plating finish. This is a high-quality coating composed of a first layer of nickel, a second layer of chromium, a very shiny appearance, high resistance to corrosion and abrasion.

### **LAQUERED**

Gessi products have an industrial lacquer finish. This coating is obtained by means of a special industrial process that involves spraying the lacquer onto the product with a subsequent firing process at a high temperature. The lacquer used is of the highest quality and ensures maximum resistance and durability. The different lacquer types depend on the product type.

### **PVD COLORS**

Gessi products have a PVD finish. This coating is obtained through the PVD (Physical Vapour Deposition) process, which is a state-of-the-art coating process that is highly resistant to abrasion and corrosion. The process is carried out in a vacuum chamber, where the material to be deposited is heated and vaporized, and then condensed onto the product to be coated. The result is a thin, uniform, and highly resistant film.

### **STAINLESS STEEL**

Gessi products have a solid Stainless Steel finish. This is a very high-quality finish, with a very high resistance to corrosion and abrasion. The finish is obtained by means of a special brushing process, which gives the product a very elegant and modern appearance. The finish is also very easy to clean and maintain.
