

# Hanging File System Installation Instructions

These installation instructions are applicable for FILE-KIT

## Contents List:

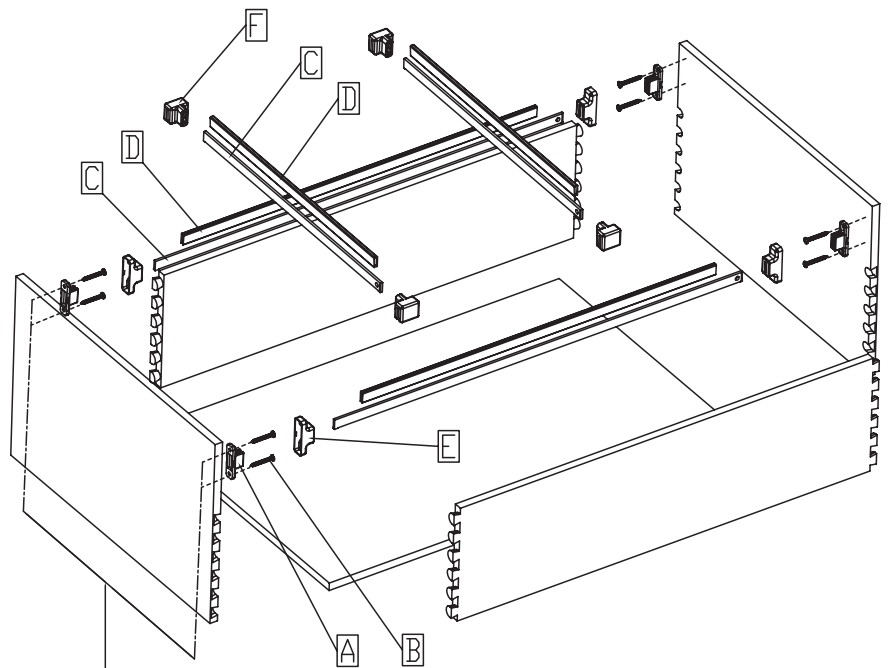

- 4 Rail Support Brackets (A)
- 8 Wood Screws (B)
- 4 Side Hanging Rails (C)
- 4 Side Hanging Rail Covers (D)
- 4 Rail Support Bracket Covers (E)
- 4 Lateral Brackets (F)

## Tools required:

Screwdriver or Drill: Phillips drive

## Installation Instructions:

1. Install four rail support brackets (A) using supplied wood screws (B). See picture 1.
2. Cut two side hanging rails (C) to length. Subtract 9.25 mm (0.364") from inside drawer length.
3. Repeat Step 2 for side hanging rail covers (D) leaving room for lateral brackets (F). Subtract 24.5 mm (0.965") from the inside drawer length for lateral brackets.
4. Slide rail support bracket covers (E) onto side hanging rails (C). See picture 2.
5. Install hanging rails (C) on rail support brackets (A) and slide bracket covers (E) onto brackets. See picture 3.
6. Install lateral brackets (F) on side hanging rails (C).
7. Install rail covers (D) onto side hanging rails.
8. Cut two lateral hanging rails (C) and covers (D) to length.
9. Install lateral rails (C) onto lateral brackets (F).
10. Install rail covers (D) onto lateral rails (C). See picture 4.

CENTERS:  
letter = 310mm (12-3/16")  
legal = 386mm (15-3/16")
