# Towel Warmer Installation Procedure

## 1 Rough-in Requirements (see figure 3)

1. A 110V receptacle located no further than 18" from electric plug-in exit location on towel warmer (see fig. 2), and not above electric plug-in exit location.
2. Wall studs or plywood backing is required in the wall at all bracket locations. See figure 2 for bracket locations.

## 2 Installation Instructions (see figure 1)

1. Check all items have been received. You should have Towel Warmer and mounting bracket kit. Read all instructions before continuing.
2. Fix wall supports "B" including collar "A" to the wall using the screws provided and in locations as shown on figure 2.
3. Screw the threaded pin "C", into the threaded bushing "D".
4. Hang and adjust the Towel Warmer using set screws "E" to lock pin "C" in the wall bracket "B". Ensure the Towel Warmer is firmly and safely fixed.

fig. 1

## 3 Electric Plug-In Connection

Do not connect the Towel Warmer to the power supply until all instructions have been read and installation carried out in accord with them. The heating element is 150W 110V. The element conforms to UL standards and the unit to CSA standards (File ref: 229718). Ensure the CSA label is visible.

1. Turn off power supply.
2. Plug connector in.
3. Switch on power supply again.

**Warning:** In case of damage or failure of the Towel Warmer the unit should be returned to the manufacturer or their distributor. The warranty of 1 year on the heating element and 5 years on the Towel Warmer is NOT VALID in case of improper use or installation. Product is designed for use within Canada and the United States only.

# Specifications & Drawings

Model #	Description	Finish	Weight (lb)	Element Size	Output	WxH (mm)	WxH (Inches)	Metal Type
E7013	Milano Electric Plug-In	Chrome	20.7	150W	887Btu	500 x 790	19.5" x 31"	Mild Steel
E7014	Milano Electric Plug-In	Brushed Nickel	20.7	150W	887Btu	500 x 790	19.5" x 31"	Stainless Steel
