

BLACK PIPE WRAP TAPE

- CARTON QUANTITIES ONLY

PART NO.	SIZE	THICKNESS
T17002	2" x 100'	12 mil
T17004	4" x 100'	12 mil

Description:

Interior and exterior pipe wrapping for corrosion and mechanical protection of small diameter pipe. Polyethylene film backing - comfortable and flexible, excellent durability and solvent resistance, withstands outdoor exposure and moisture. Butyl rubber adhesive - aggressive bond to pipe surfaces, resists moisture and solvents, excellent dielectric strength, good performance over a wide temperature range.

Application:

General purpose corrosion control tape.

Typical Test Values:

PROPERTIES	STANDARD UOM	TEST METHOD
Total Thickness	12.0 mils	ASTM D-1000
Adhesion to Unprimed Steel	40 oz/in	PSTC-101
Adhesion to Primed Steel	100 oz/in	PSTC-101
Tensile Strength	25 lb/in	ASTM D-1000
Application Temperature	0 to 140°F	-
Operating Temperature	-30 to 140°F	-
Elongation	110%	-

Color: Black

Recommended Storage Conditions: 60°-80°F at 40-60% relative humidity
