

**BLACK PIPE WRAP TAPE**

- CARTON QUANTITIES ONLY

PART NO.	SIZE	THICKNESS
T17002	2" x 100'	12 mil
T17004	4" x 100'	12 mil

**Description:**

Interior and exterior pipe wrapping for corrosion and mechanical protection of small diameter pipe. Polyethylene film backing - comfortable and flexible, excellent durability and solvent resistance, withstands outdoor exposure and moisture. Butyl rubber adhesive - aggressive bond to pipe surfaces, resists moisture and solvents, excellent dielectric strength, good performance over a wide temperature range.

**Application:**

General purpose corrosion control tape.

**Typical Test Values:**

PROPERTIES	STANDARD UOM	TEST METHOD
Total Thickness	12.0 mils	ASTM D-1000
Adhesion to Unprimed Steel	40 oz/in	PSTC-101
Adhesion to Primed Steel	100 oz/in	PSTC-101
Tensile Strength	25 lb/in	ASTM D-1000
Application Temperature	0 to 140°F	-
Operating Temperature	-30 to 140°F	-
Elongation	110%	-

**Color:** Black

**Recommended Storage Conditions:** 60°-80°F at 40-60% relative humidity
