

Electrical Tester, Open Jaw Fork Meter, AC Auto-Ranging, 200 Amp

The CL360 Electrical Tester is an automatically ranging true root mean squared (TRMS) digital open jaw fork meter that measures AC current via the fork, AC/DC voltage, continuity, and resistance via test leads. It can detect the presence of voltage via the integrated non-contact voltage (NCV) tester.

Specifications

Type:	Open Jaw Fork Current Meter	Application:	Measures AC Current, AC/DC Voltage, Continuity, Resistance
Special Features:	Low Battery Indicator, Built-in Test Lead Holders, Backlit Display	Material:	Plastic/Electronics
Batteries:	2 x AAA	Auto-Power Off:	Y
Jaw Size:	0.58" (1.5 cm) Opening	Drop Protection:	9.9' (3m)
Display:	6000 Count LCD	Functions:	AC Current, AC/DC Voltage, Continuity, Resistance
Voltage:	600V AC, 1000V DC	Current:	200A AC
Ohms (Resistance):	60M Ω	AC Voltage:	600V
DC Voltage:	1000V	DC Polarity Indicator:	Yes
Ingress Protection:	IP40	Standard:	Jaw and Housing: CATIV 600V/CATIII 1000V; Electrical: CATIII 600V/CATII 1000V; Class 2, Double Insulation
Included:	Carrying Case, Instruction Manual, Straight Input Test Leads, and 2 x 1.5V AAA Batteries	Overall Length:	8.39" (21.3 cm)
Overall Height:	1.38" (3.5 cm)	Overall Width:	2.12" (5.4 cm)
Weight:	6.40 oz (180.0g)
