### Notes

Measure your actual product for rough-in details. Install this product according to the installation instructions.

The hot water supply should be 70% of the capacity of the bath or greater. Installations will vary.

Control amplifier fits 16" (406 mm) center studs. 25' (7.6 m) cables are included.

If installing a rim-mount faucet, make sure there is no interference above or below the deck before drilling any holes.
