

Features

- DIY installation, no plumber necessary
- 24/7 leak detection continuously tracks water flow across plumbing lines in your home to help identify leaks and uncover opportunities for water conservation
- Advanced leak detection with high-definition pressure sensors analyzes water pressure 240 times/second, enabling rapid detection of leaks, bursts, and irregular usage patterns to prevent costly damage
- Provides real-time alerts via KOHLER H2Wise® app using instant email, text, and in-app notifications
- Freeze detection and prevention technology sends early freeze warnings to protect your pipes from freezing temperatures
- Compact design allows for quick installation beneath any sink, keeping device out of sight while maintaining full functionality
- In-app support for multiple units will manage up to six devices under a single account for streamlined control and monitoring
- Box includes: KOHLER H2Wise® device, precision pressure sensors, USB power adapter, mounting hardware
