

## PRODUCT SUBMITTAL 235

Product: PRO-BALANCE<sup>®</sup> Flow Setter Valves

Date: 30-August-2010

Article No.	Description	Unit Weight
244807-001	1/2-4 gpm PRO-BALANCE Flow Setter Valve	760 g (1.67 lbs)
244817-001	1-9 gpm PRO-BALANCE Flow Setter Valve	760 g (1.67 lbs)

### *TECHNICAL DESCRIPTION*

Material	Brass
----------	-------

### *FUNCTIONAL DESCRIPTION*

PRO-BALANCE flow setter valves are used to set flow to PRO-BALANCE brass manifolds and can be installed in-line into any pipe feeding a manifold. When multiple manifolds are fed from a single circulator, these valves allow flow to be set correctly to each manifold. PRO-BALANCE flow setter valves are also used in variable speed injection pump mixing systems to set the flow through the injection loop.

PRO-BALANCE flow setter valves are supplied with two gaskets and adapters converting to 1 in. MPT.
