PRO-BALANCE Brass Flow Gauge Replacement Kits

Product: PRO-BALANCE® Brass Flow Gauge Replacement Kits

Date: 01 August 2021 (supersedes 30 September 2017)

Article No.	Description
250220-002	PRO-BALANCE 1 in. Brass Flow Gauge Replacement Kit
281901-101	PRO-BALANCE 1 1/4 in. Brass Flow Gauge Replacement Kit

TECHNICAL DESCRIPTION

Material	Brass body impact and temperature resistant plastic housing, EPDM O-ring and seal, polyamide 12 transparent flow indicator and polyoxymethylene plunger
----------	---

FUNCTIONAL DESCRIPTION

PRO-BALANCE flow gauge replacement kit can be used to replace PRO-BALANCE flow gauges on the supply side of the 1 and 1 1/4 in. PRO-BALANCE manifolds. These parts connect directly to the PRO-BALANCE manifold supply side with a 3/8 in. threaded connection.

Apply the replacement kit using the following instructions:

- When replacing a flow gauge with an integrated shutoff valve at the top of the gauge, the gauge and R20 outlet will need to be replaced. Reinstall using thread sealant.
- When replacing a flow gauge without an integrated shutoff valve at the top of the gauge, only the flow meter will need to be replaced. Reinstall using thread sealant.
- Thread sealant should be a liquid type that is medium strength, so that can be removed using just hand tools.
