### FUNCTIONAL DESCRIPTION

The 600 series motor is for use with mixing valves 2" and smaller for motor operated control. The motor is controlled by REHAU outdoor reset/mixing controls. Operates on 24 volt AC input provided through these controls. No additional installation kit is required. Built-in end switch is included. Manual override of mixing valve is possible by pulling out and turning the knob. Be sure to adjust the Motor Speed setting on the electronic mixing control to 96 seconds, corresponding to a 90-degree turn of the valve.
