FUNCTIONAL DESCRIPTION

The FIREPEX residential fire sprinkler system serves the requirements for fire sprinkler systems as defined by National Fire Protection Association (NFPA) Standard 13D Installation of Sprinkler Systems in One- and Two- Family Dwellings and Manufactured Home and the International Residential Code Section P2904.

EVERLOC+ compression-sleeve fittings and sleeves are designed specifically for use with REHAU PEXa pipe. The maximum temperature and pressure ratings of the EVERLOC+ compression-sleeve fitting system is in accordance with ASTM F877 and CSA B137.5 for SDR9 PEX, see REHAU pipe product submittals for ratings. The common designations MPT (M=male) and FPT (F=female) refer to National Pipe Taper (NPT) threads in accordance with ANSI/ASME B1.20.1. Installation is performed with EVERLOC+ compression-sleeve tools. Follow all published *REHAU Technical Guidelines*. All EVERLOC+ fittings and sleeves comply with the lead-free (LF) requirements of the U.S. Safe Drinking Water Act.
