

The new degree of comfort.®

Residential Solar
SolPak Closed Loop
Gas Water Heating System

SolPak™ closed loop solar water heating system features the Solaraide™ heat exchanger gas assist tank, collectors and pump station

System

- Closed loop system – glycol design
- Fast recovery for high demand situations
- Perfect replacement for current gas water heating system
- System includes – Solaraide™ HE gas storage tank, collectors and pump station

Heat Exchanger Tank

- 75-Gallon capacity
- 75.1 BTU/h – natural gas
- Double wall, high efficiency solar heat exchanger
- Low NOx burner design
- Gas backup heating source
- Rheemglas® tank lining resists corrosion and prolongs tank life
- T&P Valve included
- Automatic temperature control and over heat protection

Collector

- OG-100 certified by SRCC
- Available in two sizes
- Durable low iron tempered glass – improves efficiency and heat transfer
- Integral mounting channel for easy installation
- Stainless steel fasteners
- Type-M copper riser tubes
- Black paint absorber coating

System Certifications

- OG-300 certification by SRCC pending

Pump Station

- Pre-engineered assembly of quality components in a neat, compact insulated enclosure
- Simple, labor saving, attractive solution for closed loop glycol solar systems
- Includes cast iron three speed pump, advanced differential controller and balancing valve and flow meter

Warranty

- 6-Year limited tank, 10-year limited collector, and 6-year limited pump station warranty*

*See Residential and SolPak Warranty Certificates for complete information

- ① Heat Exchanger Tank
- ② Collectors
- ③ Pump Station
- ④ Thermal Expansion Tank
