SQ. FT.

Long-Life True HEPA Filter Lasts Up-to 2 Years

Plasmacluster® Ion Technology Eliminates Microscopic Pollutants That Traditional Filters Cannot Trap¹

True HEPA Filter Captures 99.97% of Particles That Pass Through The Filter as Small as 0.3 Microns²

True HEPA Filtration is Ideal for Removing Common Household Allergens

Three Manual Fan Speeds Plus Express Clean

ENERGY STAR® Rated, AHAM Verifide Tested, California Air Resources Board (CARB) Certified

HEALTHIER, FRESHER AIR

A breath of fresh air in any medium-sized room, the Sharp FPK50UW Plasmacluster Ion Air Purifier with True HEPA Filtration effectively reduces pollen, dust, pet dander, smoke, germs, bacteria, viruses, odors, mold, and fungus in your living space. There is a three-stage filter system including an activated carbon filter and long-life True HEPA filter, which captures 99.97% of particles as small as 0.3 microns from the air that passes through it. The microscreen pre-filter for larger particles is washable and helps to extend the life of your filters.

Patented Plasmacluster® Ion Technology is proven effective in reducing most odors that conventional filters don't reach. The FPK50UW air purifier is an ideal solution for allergy sufferers, asthmatics, pet owners, and smokers, and best used in a bedroom, living room, study, or exercise room.

"Plasmacluster Express Clean" gives you sixty minutes of high-density Plasmacluster Ion production and high-fan speed for an extra boost of clean when you need it, and a hands-free return to the prior mode when complete. The unit has LibraryQuiet™ operation (as quiet as 22 decibels, or the sound of rustling leaves) and is ENERGY STAR® rated, so you can run the unit continuously while saving money and energy.

The FPK50UW is ENERGY STAR® rated, so you can run the unit continuously

Long life True HEPA and active carbon deodorizing filter lasts up-to 2 years saving you money

Patented Plasmacluster® Ion Technology reduces germs, bacteria, viruses, mold & fungus

Sharp Air Purifiers are tested by independent laboratories to verify the air-cleaning capability of the filtration system

¹ Plasmacluster Ion Technology produces 5X less ozone (at less than 0.01 ppm) than the lowest industry and federal standards set by the FDA, OSHA and NIOSH. Sharp Plasmacluster Ion® Technology has been tested and confirmed in 17 tests by laboratories in the USA, as well as in the U.K., Germany, Japan, South Korea, China and Vietnam.

² True HEPA filters effectively remove 99.97% of particles from the air that passes through the filter from .03 microns and larger. Overall particle reduction depends on many factors including the amount of air processed, the pollutant type and the pollution introduction rate into the environment. This device is not medical equipment and is not intended to treat or cure any condition or disease.

Sharp does not guarantee that test results can be replicated in actual user situations. Features vary between models and regions. Plasmacluster's effectiveness will vary depending on the ion density and product.
