

STAINLESS STEEL SQUARE FLOOR SINK

» 861 SERIES

SPECIFICATION

Sioux Chief 861 series stainless steel square floor sink shall be used where necessary in drainage systems. Sink shall have a formed and welded stainless steel body with anchor flange and 4" no-hub connection. All sink surfaces shall have a bead-blasted finish. A removable stainless steel dome bottom strainer shall be included. Dome strainer shall fit into sink outlet to prevent misalignment. Designed in accordance with ASME A112.6.7.

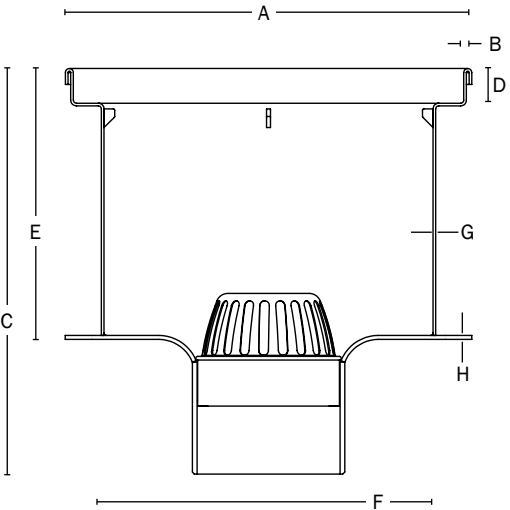

MATERIALS

304 Stainless steel

DIMENSIONS

Connection size	4" No-Hub
A: Top diameter	12" x 12"
B: Rim thickness	0.25"
C: Overall height	12"
D: Grate recess	1"
E: Sump height	8"
F: Sump diameter	9.875"
G: Sump wall thickness	14 gauge (~0.075")
H: Base/flange thickness	11 gauge (~0.125")
