

SHALLOW STEEL ESCUTCHEONS

» 910 / 911 / 923 SERIES

SPECIFICATION

Sioux Chief 910, 911 and 923 series shallow steel escutcheons shall be installed when necessary to provide a finished look for CTS or IPS supply lines, or for tubular lines where wall/ceiling/floor penetrations are present.

MATERIALS

Chrome-plated steel

INSTALLATION NOTES

Push flange over supply tube/pipe and against the finished wall prior to installing the supply stop valve.
