

SYMMONS® Canterbury™
the smart choice™

Inspired by Old English Heritage, the Symmons Canterbury™ Collection is an original design perfect for a traditional environment or to add a traditional accent to a contemporary setting. Every Symmons Canterbury™ tub and shower system features the legendary Symmons Temptrol® Pressure-Balancing mixing valve. Constructed of solid brass, bronze and stainless steel, and featuring a piston that adjusts automatically to instantly and continually equalize or “balance” the hot and cold water pressure as demands are made elsewhere in the plumbing system. Symmons Temptrol® puts an end to “Shower Shock” and provides a safe, comfortable shower every time.

Symmons Canterbury™
is available in
these finishes:

Tub and Shower Systems

S-4501

Symmons Canterbury™ shower system with lever handle and secondary **integral volume control** handle. Symmons Temptrol® Pressure-Balancing mixing valve. Single mode showerhead with arm and f ange.
