

SYMMONS® Laundry-Mate®

the smart choice™

Reduces Wear on Hoses and Machine

The Laundry-Mate control valve has a unique triple-seal packing and features self-adjusting, spring-loaded, non-wearing action. By eliminating constant water pressure shock, Laundry-Mate extends the life of your washing machine hoses.

Laundry-Mate installs easily between 2" x 4" studs on 16" centers with angle mounting straps (furnished). Copper tubing supplies enter the sides of the unit from above or below and attach to union elbows. Just connect the valve to the union elbows with two screws, install the drain pipe and hoses and screw on the cover – your work is done!

Laundry-Mate® Features

- Easy to install
- Conceals Pipes and Hoses
- Eliminate wheel handle shut-offs
- Flush to wall cover
- Paintable surface
- Easy to read operating
- Plumbing Behind the Wall

Valve and Drain Fixtures
