

Apero 120V

Convector

Features

Color

- Standard: satin white.

Finish

- Standard: epoxy/polyester anti-rust powder coating resistant to UV rays.

Voltage

- 120V, 60 Hz, 1-phase.

Construction

- Steel cabinet featuring rounded corners and grilles that prevent access to the heating element.
- Front air outlet that directs warm air towards the centre of the room. **1**
- High-limit temperature control with manual reset.

Heating element

- X-shaped, monoblock element made of surface-treated extruded aluminum. **2**

Control

- Built-in electronic thermostat with lockable setting dial and frost protection selector, located at the top of the unit. **3**
- Heating indicator light.
- "On-Off" button.

Installation

- Quick surface-mounted installation, with the included wall mounting bracket, that also serves as marking template.
- Must be plugged into a grounded 3-pronged outlet, on a dedicated circuit.

Warranty

- 2-year warranty against defects.
- 5-year warranty on the heating element.

Application

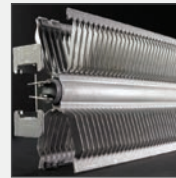

- Kitchen, living room, family room, bedroom, bay window.

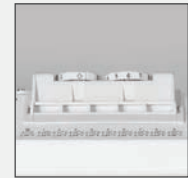

The Apero 120V connects directly to a grounded household outlet. It is ideal for renters who want to enjoy Convectair's signature comfort and be able to take it with them to a new home.
