

Our brand-new towel warmer is a must for those chilly mornings or to simply treat yourself to a blissful delight. It offers you the pleasure of a warm towel when you step out of the shower, as it quickly reaches a pleasant 50° Celsius. Directly installed on the shower's return panel, it will add a useful and practical element of design to your room. Our towel warmer is powered by a standard 110 volts wire, uses only 105 Watts and is easily installed by a professional electrician.
