## ASSEMBLY INSTRUCTIONS / INSTRUCTIONS D'ASSEMBLAGE

Step 1

Lay both frames (B) and (C) on a flat surface. Align the two holes in the center bar, and insert the two bolts (F). Do not tighten completely. Note that one bar of the center frame is higher than the other; the *lower* bar is the back side of the seat.

Step 2

Align the cross bar (D) with rounded cutouts in (B) and (C) as shown. Tighten bolts (E) with Allen wrench (H) as firmly as possible.
Step 3

Tighten center bolts (F) as firmly as possible.

Step 4

Lay seat (A) on a flat and protected surface. Flip the frame from steps 1-3 upside down, and lay it on top of the underside of the seat. Make sure the back of the frame is aligned with the back of the seat. Insert and tighten all four bolts (G).
